

### **CANCELLATION OF PREVIOUS PASS (TRANSFER INSTITUTION)**

1. A student who possesses student pass from another educational institution should shorten and cancel current student pass prior to enrolment at Universiti Malaysia Pahang (UMP). In most cases, special pass is compulsory to be made with previous educational institution in order to give ample time for new student pass application at new institution. Kindly bring along original release letter from previous university.
2. You are only allowed to change course or institution twice. If you have more than 2 records of changing institution / course, you will not be recommended for registration at UMP as the VAL application (student pass) will possibly get rejected by the Immigration Department of Malaysia.
3. If you are currently studying at Language school, you will not be allowed to change your institution and will not be recommended for registration at UMP due to student pass & visa requirement. If you wish to change your institution, you will be required to leave the country and make a new application.
4. You are required to undergo a post arrival medical screening with any clinic/hospital approved by Ministry of Health, Malaysia before the registration date. The complete medical report will have to get verification from UMP Medical officer. All fee related with medical check-up is excluded from tuition fee and will be borne by the student.
